## TESTIMONIALS

*"We were in the market for a space that would suit hybrid working, somewhere central that the team could use as they needed, a private office that was fully accessible, serviced with all utilities in place. The Tara Building gave us just that, a very relaxed atmosphere with a creative culture that made us feel at home from the outset. It's hard to think of us being anywhere else at this stage."*

*- Noel Greene, Director at Evolve*

*"It was one of the best decisions to base myself there. Practically because you get stuff done in a business environment with all the infrastructure at hand, plus emotionally through the interactions with the people you meet every day. It's a rare place with some sort of magic that's all about the personalities that make this place what it is. An amazing team behind it all."*

*- Phil Ansell, CEO at Millstream Recycling*
